

AMERICAN KENNEL CLUB<sup>SM</sup>

Frozen Semen Collection Statement

Use this form to certify the collection of semen and its frozen storage for use in the USA. An AKC® DNA Profile is required for all stud dogs (including foreign stud dogs) whose semen is collected for frozen use after October 1, 1998. If a DNA Profile has not already been completed, include the DNA sample, with its required form and payment, with this form. Please use black ink and capital letters to fill in the boxes. Information you omit or print outside of the boxes will delay processing. Important information and instructions are on page 2 of this form.
